④ Local Area : The city of Choshi is located approximately 100 km from Tokyo and 50 km East of Narita Airport. It is surrounded on the East and South by the Pacific Ocean as well as the Tonegawa River on the North creating a mild climate that is relatively cool in the summer and warm in the winter, which also causes fog and high humidity. Snow rarely accumulates and there is always a strong ocean breeze. Many windmills can be seen in the area. It is known for its fishing ports, having the largest catch in Japan, its soy sauce production, and its abundant agriculture, allowing food self-sufficiency rate of 250%. The air is clean and the the landscape is rich and varied. The area was designated as the Suigo-Tsukuba Semi-national Park in 1959 and as a Geo-Park in 2012. <http://www.choushi.geopark.jp>. In 2015 Choshi was designated as an historical city and in 2016 Choshi was selected one of Chiba Prefectures scenic cities

Course Synopsis

① The main goal of this course is for sstudents to gain learn the Japanese language and culture. In addition students learn beyond their textbooks and gain first hand experience in the Japanese culture such as cuisine and festivals. Japan my look small on the map but each region has it own unique culture and feel, come discover for your self.

② Course Characteristics

Japanese Language and Culture Course is administered by the Intensive Japanese Language Program with the following Educational philosophy:

Come study at a university on the shores across the Pacific Ocean from America in a city on a peninsula that faces the world. Choshi City has an international population of over 5% as there are numerous foreign trainees in the agricultural and fishing industries. As the campus extends into the community there are many opportunities to interact with, and learn Japanese from the local citizens (including primary and secondary students) on a daily basic. It is an environment where one can relax both the mind and body while studying.
