

To the Parents of/and International Students at Chiba Institute of Science

There was a major earthquake disaster in the northeastern and north Kanto region of Japan on March 11, 2:46 p.m. There are two campuses at our university (Honbu Campus and Marina Campus). The tsunami caused flooding on the first floor of the CIS Honbu Campus. Fortunately, not one student or faculty was hurt or killed, and the building experienced very little damage.

Efforts to restore the building started immediately after the disaster and business for the most part has returned to normal (please refer to photos).

We would like prospective and returning international students of CIS, and the parents of these students not to worry.

With regards the nuclear power plant, our university is located in Chiba Prefecture which is over 200 km away from Fukushima. Our university is carefully watching the situation and as of now, there are no reports of damage towards health.

There has been some minor changes in the events, and would appreciate your attention to the new schedule.

※It's already been restored.

For New International Students (Undergraduate, Graduate, Intensive Japanese Language Program) and Parents of these students

◎ **About Arrival (Students from Overseas)**

The Entrance Ceremony will be on April 7th as scheduled for newly enrolled Japanese and international students. All of us at the university are doing our best to welcome all of you. We would appreciate your arrival to Japan by April 4th, and please let us know of your flight and arrival date.

Make sure to let us know, however, if you should not be able to arrive by this date for whatever reason.

Our staff members will greet you at the airport in accordance to your arrival date.

We will also do our best to avoid any inconvenience regarding the entrance ceremony, orientation, and lectures that may be caused by delays in arrival.

Although we understand that all will depend on the situation, we wish that you arrive by April 25th at the latest.
